A Microsoft Partner Like No Other

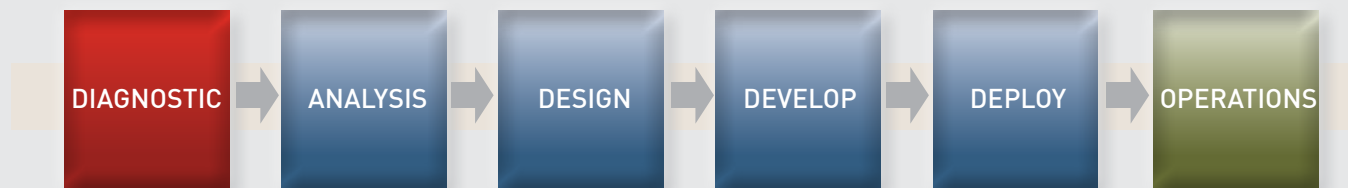

We build relationships that last by putting our clients first. We invest our expertise and resources in our clients' immediate and enduring success. Tectura has developed the expertise required to deliver comprehensive solutions that address industry requirements for both our globally deployed industry focuses and those targeted solution we offer in local geographies.

OPTIMIZE PERFORMANCE WITH AN INTEGRATED APPROACH

Tectura combines operational excellence offerings with technology offerings in a manner that enables clients to get the most from their solution initiatives. By leveraging Microsoft technology, Microsoft Dynamics business management solutions and business consulting services (program management, business process improvement and change management), we provide clients the ability to capitalize on their value chain. Tectura extends this value with team members around the world that support organizations both locally and globally, meeting the demands of complex business requirements and delivering a distinctive difference—time and again.

Tectura Solution Framework

Tectura approaches all implementations utilizing a delivery methodology that's aligned with the Microsoft Dynamics Sure Step Methodology. Our Tectura Solution Framework methodology includes Project Management Institute fundamentals for governance of cost and schedule; incorporates Tectura quality standards into tools and templates; is client focused with an emphasis on learning and building competency in the application; leverages lessons learned globally to drive continuous improvement; and incorporates Tectura's ability to provide world-class services.

FLEXIBLE APPROACH. PROVEN FRAMEWORK.

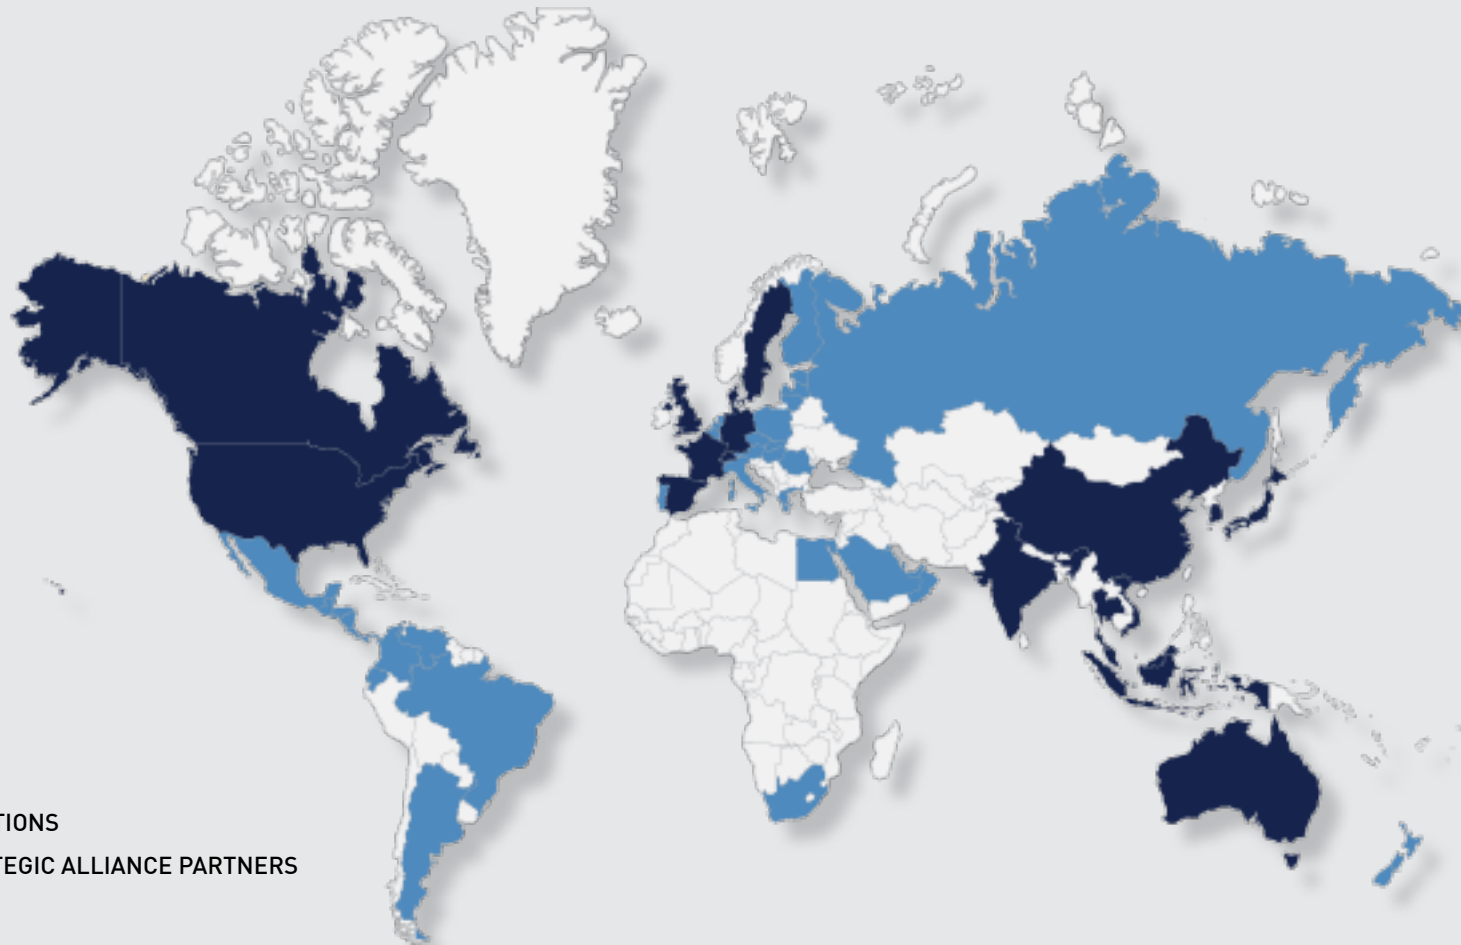

It's a project methodology that also fosters close client involvement and collaboration and is adaptable to organizations of all sizes—no organization is too big or too small. The advantages that Tectura brings to the methodology include: experience with diverse projects, global and complex as well as local and straightforward; a managed approach built on a proven methodology; integrated solutions at a lower total cost of ownership, with the level of functionality and reliability that our clients require.
